To effectively tap into the immense innovation potential of students in solution development, Makerere University School of Public Health - ResilientAfrica Network (RAN) is pleased to announce **Youth Spark Innovation Grants (YSiG)** which will recognize and support promising and creative ideas from students at RAN partner universities across Africa. The best ideas will receive grants ranging from \$1,000 – \$3,000 to further develop and refine their ideas. By leveraging creativity of students and the power of competition to drive innovation, **Youth Spark Innovation Grants (YSiG)** provides a great platform for students across **all disciplines** to use their creativity, passion and knowledge to create solutions that will contribute to RAN's Resilience Innovation agenda. We wish to support students' ingenious attempts at proposing promising ideas, approaches, or simple prototypes that will contribute to causing positive community change and strengthen resilience. Concepts may range from the feasible to the fanciful, as long as they address a resilience challenge within a community and apply innovation to strengthen community resilience.
