

**Dr. Koech Oscar** of the University of Nairobi, Department of Land Resource Management and Agricultural Technology (LARMAT) attended a National Irrigation Board workshop for presentation of research findings for studies carried out by NIB and collaborators for the year 2014/2015. The workshop took place at Naivasha, Morendat Training and Conference Centre, on 9th & 10th July 2015. The participants were from research institutions (KARI, KEFRI, KALRO, KEPHIS), Universities (UoN, JKUAT, Egerton, KEMU and Moi University) and other stake holder from agro companies and seed companies. The meeting provided a platform for Dr. Koech from the University of Nairobi (UoN) to share research findings on Irrigated pasture production in Bura Irrigation Scheme. The meeting also proposed to strengthen research partnership between UoN and NIB in solving food security and resource use challenges in Kenya.
